

MICRO WELD SOFTWARE

It is a windows- based application. MICRO Weld Check provide various superior tools for image capturing, visualisation, enhancement, analysis and report generation. Our imaging solution is a powerful integration of software and hardware that enables the user to automatically capture images, performs metallurgical analysis and generate reports. All modules as per international standards, customised report design support available.

SPECIFICATIONS

- Annotation Tools
- Linear Measurements
- Weld Profile
- Weld Percentage Analysis
- Defect Highlight
- Advance Reporting

ANNOTATION TOOLS

- Pointer
- Line
- Arrowed Line
- Pencil/Freehand
- Rectangle
- 3 Point Circle
- Dragging Circle(Circle from Centre)
- Perpendicular
- Horizontal Line
- Vertical Line
- Colour
- Text
- Line Thickness
- Refresh

LINEAR MEASUREMENTS

- Line
- Freehand
- Parallel Line
- Intersection Point
- Perpendicular
- Line Angle
- Point Angle
- Circle from centre
- Point Circle
- Len Circle Centre
- 2 Circle Distance
- Concentric Circle
- Freehand Area
- Rectangle

SYSTEM REQUIREMENTS

- Windows 7 or above
- Intel quad-core processor or
- better
- 4GB RAM or higher
- USB Ports
- Internet connection for online
